

ABDULBASIT AJIKANLE IMRAN

PROFESSIONAL SUMMARY

Technology and business professional with proven experience leading cross functional teams, optimizing operational efficiency and driving digital transformation. Skilled in project and product management, strategic planning and data-driven decision making to accelerate organizational growth. Adept in managing technology initiatives, budgeting and implementing scalable systems that improve productivity and customer experience. Strong track record of delivering innovative solutions, aligning business and technology objectives and empowering diverse teams to achieve measurable results and exceed corporate goals.

EXPERIENCE

Regional Manager

January 2018 - Present | JOKBIS VENTURES

- Managed and coordinated daily operations across multiple store locations to ensure seamless and efficient functionality.
- Monitored sales performance, inventory management, and customer satisfaction to meet business objectives.
- Led and trained store managers and staff to maintain high standards of service and productivity.
- Implemented strategies to optimize operational efficiency and reduce costs without compromising quality.
- Coordinated a team of developers to build internal tools such as inventory tracker and daily sales reports to help facilitate work efficiency.
- Conducted regular audits to ensure compliance with company policies, safety standards and regulatory requirements.
- Analyzed market trends and consumer feedback to inform decisions on product offerings and promotions.
- Fostered strong relationships with vendors, suppliers and stakeholders to maintain seamless supply chain operations.
- Introduced process improvement that reduced operational downtime and improved inventory accuracy.
- Regularly collaborated with management, tech engineers and support staff to align technical needs with business goals.

Site Engineer

January 2015 - Present | KT Nigeria Limited

CONTACT

SKILLS

- Client Engagement & Experience
- Technical and Research Writing Skills
- Project Planning and Monitoring
- Digital Skills
- Reporting and Documentation
- Excellent Communication Skills
- Time Management
- Full Stack Developer
- Microsoft Office Expertise
- Vibe Coding
- Strong Analytical and Problem Solving Skills

- Supervised and executed installation, maintenance and repair of electrical systems on construction sites.
- Ensured compliance with electrical codes, safety standards and project specifications during all phases of construction.
- Conducted site inspections to evaluate progress and identify potential electrical issues, implementing timely solutions.
- Collaborated with architects, contractors and project managers to align electrical designs with overall construction plans.
- Interpreted technical drawings, blueprints and electrical schematics to guide installation teams.

Infrastructure and Support Technical Engr

January 2023 - Present | BOTOSOFT Technologies Limited

- Participated in the on-site supervisory team during the SIWES program for access point installation.
- Diagnosed and repaired faulty handheld devices to restore functionality and improve operational efficiency.
- Collaborated closely with site engineers to ensure timely and quality project execution.
- Supported deploying and maintaining handheld devices used for WAEC operations, including data uploading and troubleshooting.

Installation Engineer

January 2014 - Present | MIKANO International Limited

- Managed installation and commissioning of industrial and residential power systems, including generators and electrical equipment.
- Conducted site surveys to assess requirements, ensuring installations adhered to technical specifications and safety standards.
- Troubleshoot and resolved on-site electrical issues to ensure optimal system performance.
- Coordinated with clients and contractors to deliver customized power solutions on schedule and within budget.
- Prepared detailed project reports, documenting installation progress and system performance metrics.

EDUCATION

B.Eng in Computer Engineering

January 2024

Ahmadu Bello University, Zaria, Kaduna

ND in Electrical Electronics Engineering

January 2016

Kwara State Polytechnic, Kwara

High School

January 2012

PROFESSIONAL MEMBERSHIPS

- Engineering Students Society (ESS)
- Nigerian Society of Engineers (NSE), Graduate Member
- Council of the Regulation of Engineering in Nigeria (COREN), Pupil Engineer
- Nigerian Association of Muslim Engineering and Technology Students (NAMETS), Member

PUBLICATIONS

- Evaluating an ESP32-Based Smart Garbage Monitoring System for Improved Waste Management, Ajikanle A. A, Ajayi O., Ibrahim I., Lawal A.O, Yakub A.A, James J.K, 2024
- Mathematical Modelling of Truck Platoon Formation Based on Dynamic String Stability, Ajayi Ore-Ofe, Abubakar Umar, Ibrahim Ibrahim, Lawal Abdulwahab Olugbenga, Ajikanle Abdulbasit Abiola, 2024
- Development of a Head Gesture-Controlled Robot Using an Accelerometer Sensor, Ajayi Ore-Ofe, Abubakar Umar, Ibrahim Ibrahim, Ajikanle Abdulbasit Abiola, Lawal Abdulwahab Olugbenga, 2024
- Design and Implementation of a Smart Waste System Using Internet of Things, Olugbenga, L. A., Ore-Ofe, A., Ibrahim, I., Abiola, A. A., Koji, J. J., Alada, Y. A., 2024, ATBU Journal of Science, Technology and Education, 12, 3, 254-262, <http://www.atbuftejoste.com.ng/index.php/joste/article/view/2172>
- Development of a Call Location Tracking System Tailored for Enhancing the Efficiency of Police Responses to Distress Signals, Yusuf, K., Ajayi, O., Ibrahim, I., Lawal, A. O., Ajikanle, A. A., 2024, ATBU Journal of Science, Technology and Education, 12, 3, 286-293, <http://www.atbuftejoste.com.ng/index.php/joste/article/view/2206>
